Question:

Dan and Team, Would the City of Holland entertain extending the due date for the proposals a couple of weeks? One of our teammates working on the project has had an unexpected medical leave and that is putting us behind. Our ask is whether or not you could push the response time back a couple of weeks instead of the March 27th date. Thank you for your consideration. Thanks, Dave

Answer:

Unfortunately, given the timeline we have and the need to work around bidders' and the city council's schedules, we cannot move or extend it.
